4  |                                     |
5  | DATE: 13-Dec-2023                 |
6  | NAME: Jeff Slavick                 |
7  | COMPANY/AFFILIATION: Broadcom Inc. |
8  | E-MAIL: jeff.slavick@broadcom.com  |
9  |                                     |
10 | REQUESTED REVISION:                 |
11 |   STANDARD: 802.3-2022              |
12 |   CLAUSE NUMBER: 119                |
13 |   CLAUSE TITLE: Physical Coding Sublayer (PCS) for 64B/66B, type          |
14 |                       200GBASE-R and 400GBASE-R                          |
15 |                                     |
16 | PROPOSED REVISION TEXT:              |
17 | Change the Ca29=Ma0 to Ca30=Ma0 in Figure 119-11                        |
18 |                                     |
19 |                                     |
20 |                                     |
21 |                                     |
22 |                                     |
23 | RATIONALE FOR REVISION:              |
24 | There is a typo in Figure 119-11 which has two occurrences of Ca29 that    |
25 | point to two different message symbols.                                   |
26 |                                     |
27 |                                     |
28 |                                     |
29 |                                     |
30 |                                     |
31 | IMPACT ON EXISTING NETWORKS:          |
32 | None                                  |
33 |                                     |
34 |                                     |
35 |                                     |
36 |                                     |
37 |                                     |
38 |                                     |
39 |                                     |
