

Architecture meeting July 2006

- Presentation on time synchronization
 - Kevin Stanton
- Candidate topics
 - Consumer electronics
 - Service interface harmonization across MACs
 - Time Sync
 - Some QOS
 - Location awareness (VOIP relevance)
 - Link Agg – move from .3 to .1?
 - Make sure PHY agg doesn't break Link Agg
 - Slow Protocol – where should that live
 - Procedurally how do we move it (2 simultaneous PARs)
 - Energy power management
