Email: jean-loup.ferrant@calnexsol.com

Q13/15 is responsible for network synchronization within ITU-T SG15. Q13 is currently working on the transport of time through packet networks.

During the interim meeting held on March 1-5 2010, Q13 thought it might be useful to have access to the documents written by IEEE802.3bf on time stamping. Q13 will not copy these documents but simply refer to them in its documents if needed.

Q13 would like to know if IEEE can provide access to these documents.

Q13 thanks IEEE for considering this request.
