Subject: Liaison reply to China NB Comments on the IEEE Std 802.3-2012 pre-ballot

Approval: Agreed to at IEEE 802.3 Plenary meeting, Geneva, Switzerland, 18<sup>th</sup> of July 2013

Dear ISO/IEC JTC1 SC 6 Secretariat,

IEEE 802.3 would like to thank China NB for their review and comment on the submission of IEEE Std 802.3-2012 for adoption by ISO/IEC JTC 1/SC 6.

IEEE Std 802.3-2012 is security agnostic allowing the user to run any security protocol.

IEEE Std 802.3-2012 does not rely on IEEE Std 802.1AE. There is no normative reference to IEEE Std 802.1AE.

Sincerely,

David J. Law  
Chair, IEEE 802.3 Ethernet Working Group
