Subject: Liaison reply to TR-42 Liaison to IEEE 802.3 Working Group regarding TIA TR-42.7 "High Performance Structured Cabling (HPSC) Applications" task group

Approval: Agreed to at IEEE 802.3 Plenary meeting, San Diego, CA, July 17, 2014

Dear Mr. Emplit,

Thank you for the draft version of ANSI/TIA-568-C.2.1 and your liaison advising us of the activity of the newly formed TIA TR-42.7 "High Performance Structured Cabling (HPSC) Applications" task group and the task group's planned deliverable of an informative telecommunications systems bulletin (TSB). We reviewed one contribution on 40GBASE-T advantages and use cases at our recent P802.3bq meeting held in San Diego, CA (refer to: http://www.ieee802.org/3/bq/public/jul14/jimenez_3bq_01_0711.pdf). This presentation was well received by the Task Force and we are looking forward to receiving additional information of this type. We support the activity of this task group and look forward to being able to provide input in the future.

Sincerely,

David Law

Chair, IEEE 802.3 Ethernet Working Group
