Maintenance requests

Activities this week

- Considered 3 maintenance requests

1276	Add definition of "PoE" to IEEE Std 802.3. **G. Thompson accepted an action item to draft a change to 33.1 that expands "PoE" with related additions to definitions and abbreviations (due at September 2015 meeting, closed 13th July).**
1277	Add text to clarify that PDs should not turn on their DC-DC load during inrush. **Consideration deferred to September 2015 meeting (more information needed).**
1278	Iport (1.4.234), Vpd (1.4.425), Vpse (1.4.426) are not technical terms and should not be included in the list of definitions. Suggested placement is adjacent to Icable definition in 33.1.4. **Referred to the P802.3bt TF (Ready for Ballot).**
