Response to China NB comments from IEEE Std 802.3-2015 60-day ballot

[Review draft liaison letter]

Comments

MB/ NC ¹	Line number	Clause/ Subclause	Paragraph/ Figure/Table	Type of comment ²	Comments	Proposed change
CN1 001				Ge, te	The version of IEEE 802.3 TM -2015 has already integrated many technical contents; however, it lacks of security that is essential for implementing this standard.	Add a part of security in the text as IEEE 802.11 does
CN2 002				Ge	IEEE 802.3 WG declared that it didn't expect to submit any further versions to ISO/IEC for approval in 6N13919. Now it may be confusing that IEEE 802.3 TM -2015 is submitted to SC6 for approval.	Please provide background information or basis for such an action/decision.

1 **MB** = Member body / **NC** = National Committee (enter the ISO 3166 two-letter country code, e.g. CN for China; comments from the ISO/CS editing unit are identified by **)

2 **Type of comment:** **ge** = general **te** = technical **ed** = editorial
