Subject: Liaison response to ITU-T SG15 liaison letter on generation of YANG modules from Transport Technology UML information models

Approval: Agreed to at IEEE 802.3 plenary meeting, San Diego, CA, US, 28th July 2016

Dear Mr. Trowbridge,

Thank you very much for your communication.

We appreciate your update of your progress on generation of YANG models from UML information models. During the IEEE 802 Plenary meeting, an IEEE 802.3 YANG Data Model(s) Project Authorization Request (PAR) was approved for submittal to IEEE-SA Standards Board, and we anticipate its approval in September 2016.

---

<sup>1</sup> This document solely represents the views of the IEEE 802.3 Working Group, and does not necessarily represent a position of the IEEE, the IEEE Standards Association, or IEEE 802.

With that project approval, we will be able to make technical decisions, including how we would produce models.

We look forward to further discussion with you as the project develops.

Sincerely,  
David Law  
Chair, IEEE 802.3 Ethernet Working Group
