

IEEE P802.3cp 10, 25, and 50G Bidirectional Optical Access PHYs Closing Report

Frank Effenberger
Huawei Technologies
Vienna, AUT
July 2019

Progress this week

Met for half a day, with 10 people attending

Considered 4 contributions

Did comment resolution on draft 0.2, will produce D1.0

Built consensus on non-engineered 40km power budget

A liaison to ITU-T SG15 will be prepared for Sep meeting, to share the draft once it becomes stabilized

Task Force Motion

Accept all comments resolutions as recorded in the Vienna meeting (includes all in topic “EZ Bucket”) and instruct the Editor to generate Draft 1.0 from Draft 0.2 based on the approved comments.

- M: Duane Remein S: Claudio Desanti
- Technical $\geq 75\%$
- Yes:6 No: 0 Abs: 0
- Motion result: Passes

IEEE P802.3cp 10, 25, & 50G Bidirectional Optical PHYs

Future plan

Conference call 15 Aug 2019, 12:00 EDT

Meet at Indianapolis 9 Sep 2019

Action items

- Refine draft

- Finalize 40km loss budget

- Finalize the wavelength plans for all speeds and budgets

Questions?

Thank you!
