

July 11, 2019

To: David Law and members of the IEEE 802.3 Working Group
cc: Peter Anslow, IEEE 802.3 WG Secretary
John D'Ambrosia – IEEE P802.3ct Task Force

Subject: 400ZR Interop Project

From: Klaus-Holger Otto, OIF Technical Committee Chair (klaus-holger.otto@nokia.com)

Dear Mr. Law and participants of IEEE 802.3 Working Group,

We are pleased to announce that the OIF has generated an updated revision of the 400ZR IA draft, oif2017.245.12. Our updated baseline document incorporates the comments and redlines from our previous working document (oif2019.161.03), liaison dated May 19, 2019.

We very much appreciate our ability to liaise with the IEEE P802.3ct Task Force on the 400ZR applications. Please keep us updated on any decisions or directions in the 400GBASE-ZR project that would indicate synergistic or divergence from the 400ZR IA. We will continue to update the IEEE 802.3 on the progress of the 400ZR IA. Our next meeting is in Montreal Canada the week of July 29th, 2019.

Note: Attention is called to the possibility that use or implementation of this OIF document, oif2017.245.12, may require use of subject matter covered by IPR. By providing access to this document, no position is taken with respect to the existence or validity of any IPR in connection herewith. The OIF shall not be responsible for identifying all IPR which is required in order to utilize this document or the information contained herein, or for conducting inquiries into the legal validity or scope of such IPR that is brought to its attention.

This draft is not a contribution nor is it a submission on an IEEE Standards draft and therefore the IEEE-SA copyright and patent policies do not apply.

Sincerely,

Klaus-Holger Otto,
OIF Technical Committee Chair (klaus-holger.otto@nokia.com)
