

SCC18 Adhoc Report

Chad Jones

July 23, 2020

Adhoc meetings

- Adhoc met on July 15 and 22
- Discussed Category C liaison to TC108/PT63315
- Discussed NFPA applicant status
- Discussed SCC18 title and charter

*As reported in the open, the Ad Hoc provided proposed responses to TC64/PT716. That file can be found here:

http://www.ieee802.org/3/ad_hoc/SCC_18/private/IEC_PT_716/CC_64_2413_CDV_060320.pdf

Proposed new name and charter

IEEE 802.3 PDCC (Power Delivery Coordinating Committee) Ad Hoc

The Chair of the IEEE 802.3 Working Group has established an ad hoc to:

Review output and build consensus on draft input for liaisons regarding power delivery over cabling cited in IEEE 802.3 standards and projects, e.g.:

- Build consensus on responses to public input proposals received as part of the next edition of NFPA70; and
- Consider any other NFPA related items of interest, such as proposed Tentative Interim Amendments (TIAs); and
- Build consensus on draft input to IEC TC64/PT716, and proposed direction of the IEEE 802.3 Category C liaison expert; and
- Build consensus on draft input to IEC TC108/PT63315, and proposed direction of the IEEE 802.3 Category C liaison expert.

The output of this Ad Hoc is subject to approval of the 802.3 Working Group.

Category C Liaison

Display liaison letter

Motion

Move that the IEEE 802.3 Working Group approve the request for a category C liaison with IEC TC108/PT63315 in IEEE_802d3_to_TC108_PT63315.pdf with editorial license.
