Rules change procedure

• Revision procedure in subclause 2.9 of rules
  – Changes pre-circulated prior to plenary
  – Vote held at the closing IEEE 802.3 plenary
  – Choices:
    • Reject
    • Approve
    • Send out to Working Group ballot

• No new revisions proposals received
• Four rules revisions proposals received in March 2007
• Vote at July 2007 closing plenary
  – 3 Changes approved
    • Updated rules posted (Version 5.7)
  – 1 Change sent out to Working Group ballot
    • 3-03/07: Align IEEE 802.3 Five Criteria requirements with LMSC P&P
Proposed Rules Revision 3-03/07
(Align IEEE 802.3 Five Criteria requirements with LMSC P&P)

• Proposed change

  Replace 7.2 with the following:

  When a study group presents a request to the WG for them to forward a draft PAR to the LMSC EC for approval, they shall in addition present a completed set of responses to the 'five criteria' (see LMSC P&P 17.5). An 802.3 project shall also address the following.

  Compatibility
  - Compatibility with IEEE Standard 802.3
  - Conformance with the CSMA/CD MAC

  Distinct Identity
  - Substantially different from other 802.3 specifications/ solutions.

• Rationale for change

The LMSC Five Criteria are based on the 802.3 criteria, but they have minor differences. This changes mandates use of the LMSC Five Criteria with some additional unique points from the 802.3 Five Criteria being required in the responses.
