Late Maintenance Requests

- Requests 1221, 1222 received after deadline (3/11)
- Suggest to consider them this cycle
 - Given that other requests deal with EPON material
 - Maintenance TF Chair was able to process with other requests and announce together
 - If there is no objection by the WG to do so
 - If there is no objection by the TF to do so
 - Will not serve as a precedent
- In reviewing the deadline text, it is not clear when the deadline is during a plenary (TF vs. WG open)
 - TF open vs. WG open
 - Was not applicable for #1221, #1222 (received after both deadlines)
 - Goal: balance submittal flexibility vs. notice to participants
 - Proposed text to clarify to WG open during plenary
 - Reviewed proposed text in WG. No objection from the WG on above
