

# Gigabit POF CFI

- Deployment of Ethernet continues to stimulate the need for PHY technologies that address particular market needs
- Plastic Optical Fibre provides distinct advantages for deployment of Gigabit Ethernet in diverse environments
- POF provides significant installation advantages for home networking
- It is also an attractive and complementary medium for automotive application environments
- This Call for Interest will request the formation of a study group to explore the available technologies, market need and market application requirements for a POF 1 Gbps Physical Layer specification

## Plastic Optical Fibre (POF)

- A proven and mature medium applicable to Ethernet
- A medium that will answer application requirements in multiple markets
- A simple, easy to install medium
- A media option with broad industry support

# Simplified agenda

- Gigabit POF CFI consensus meeting
  - Tuesday 18th
  - 19:30
  - Room:
  
- Overview of POF technology
- Look at selected market applications
- Ample time for Q&A
