Dear Mr. Law,

This letter is to advise you of the technical work that is underway in TIA TR-42.7 Subcommittee to develop specifications for DC resistance unbalance between pairs. In that regard we are forwarding the following draft specifications as follows:

1) Category 8 ANSI/TIA-568-C.2-1 draft 3.1
2) TIA TSB-184-A draft 1.0

The category 8 specification for pair-to-pair resistance unbalance can be found in clause 6.2.3 of draft ANSI/TIA-568-C.2-1. The guidelines for the other categories for pair-to-pair resistance unbalance can be found in Clause 7.3 of draft TSB-184-A.

These are specifications under development and we would appreciate any feedback regarding them for our consideration and analysis.

Sincerely,

Ray Emplit
Chair, TIA TR-42
