Subject: Cabling to Support 25GBASE-T

Dear David,

Thank you for your liaison from the IEEE 802.3 Working Group regarding 802.3bq development (our reference SC 25 N 2509).

At our 29 Feb to 04 Mar meeting in Mexico, we made good progress with ISO/IEC TR 11801-9905 "Guidelines for the use of installed cabling to support 25GBASE-T application". All expert comments on an initial working draft have been resolved and implemented in the attached working draft.

We would be happy to address any requests or questions you may have.

Sincerely,

Albrecht
