Subject: Reply on ISO/IEC JTC 1/SC 25/WG 3 N 1329

Approval: Agreed to at IEEE 802.3 Working Group meeting, Denver, CO, 14 March 2024

Dear Dr. Oehler,

IEEE 802.3 would like to inform ISO/IEC SC 25/WG 3 that the IEEE P802.3da project has circulated Draft 1.0 and is making progress in Task Force review. Following the SC 25/WG 3 request in your liaison letter 3N1329, IEEE 802.3 would like to share our latest draft of IEEE P802.3da. Additionally, the Task Force expects to circulate Draft 1.1 soon, and anticipate sharing that document when available.

¹ This document solely represents the views of the IEEE 802.3 Working Group and does not necessarily represent a position of the IEEE, the IEEE Standards Association, or IEEE 802.

The IEEE 802.3 Working Group notes that this is still an early draft and as such, we expect significant changes and the addition of new content (e.g., the addition of mixing segment parameters) before the work can be considered stable. We will keep SC 25/WG 3 informed of progress on this project.

Thank you for your continued collaboration with the IEEE 802.3 Working Group.

Sincerely,

David Law

Chair, IEEE 802.3 Ethernet Working Group
