Subject: Liaison reply to ITU-T SG15 on coordination of bidirectional optical for access  
Approval: Agreed to at IEEE 802.3 Ethernet Working Group Interim, 21<sup>st</sup> May 2020

Dear Mr Effenberger and Mr Kani,

We want to thank the members of ITU-T Q2/15 for providing your comments against our recent draft. These were very useful and have been implemented. We would like to inform you that the IEEE P802.3cp 10 Gb/s, 25 Gb/s, & 50 Gb/s Bidirectional Optical Access PHYs project has progressed to draft D1.4 which the IEEE 802.3 Working Group approved for forwarding to Working Group Ballot as draft D2.0. A copy of D1.4 is attached.

For future communications, please note that our next meeting will be 15th July 2020. The reflector subscription information can be found at <http://www.ieee802.org/3/cp/reflector.html>.

We appreciate your review and look forward to continued coordination on the development of bidirectional optical access PHYs.

Sincerely,  
David Law  
Chair, IEEE 802.3 Ethernet Working Group
