Subject: **Slow Protocol Frame Rate**

Approved at IEEE P1904.1 Working Group meeting, Beijing, China, 26 August 2010

Dear Mr. Law,

Thank you for your letter dated 15 July 2010 concerning the Slow Protocol frame transmission rate limitation. Per your suggestion, we have studied the revision request now under consideration by the IEEE 802.3 WG (http://www.ieee802.org/3/maint/requests/maint_1229.pdf).

In our opinion the proposed modification would completely satisfy the concerns raised in our previous letter. This issue is of great interest to us, and if the IEEE 802.3 WG requires any further input on this topic we would be happy to supply it promptly.

We would like to express our appreciation for your quick response to our request, and we look forward to continued cooperation between our groups.

Very truly yours,
Glen Kramer, Chair, IEEE P1904.1 *SIEPON* Working Group (glen.kramer@ieee.org)
