802.3 PARs ad hoc report

IEEE 802.3 ad hoc on PARs from other WGs

Robert M. Grow, ad hoc chair

RMG Consulting

Orlando, Florida, USA

9 November 2017

P802.15.10a (amendment)

Recommended Practice for Routing Packets in IEEE 802.15.4 Dynamically Changing Wireless Networks: Additional routing modes

PAR: https://mentor.ieee.org/802.15/dcn/17/15-17-0565-00-0000-802-15-10a-par.pdf

- 2.1, Title
  - Comment: PAR does not appear to be output from myProject because of formatting of: Amendment adding additional routing modes, plus amendment title should start with a capital letter.
  - Proposed remedy: Amendment: Adding additional routing modes (the colon should be fixed by myProject, capitalization should be corrected when entered into myProject).
  - 802.15 resolution: Accept. Actually title was generated by myProject. Will work with the NesCon Admin to put it into the correct format at the same time as updating the PAR title to be consistent with the scope (see response to comments from RAC Chair).

- 5.2.b, Project scope
  - Comment: NesCom conventions require expansion of acronyms.
  - Proposed remedy: Expand E2E and P2P in this PAR item.
  - 802.15 resolution: Accept. Acronyms will be expanded. (end-to-end and peer-to-peer)
  - Note – Scope was changed in response to a comment from the RAC Chair.

P802.15.10a (cont.)

Recommended Practice for Routing Packets in IEEE 802.15.4 Dynamically Changing Wireless Networks: Additional routing modes

CSD:

https://mentor.ieee.org/802.15/dcn/17/15-17-0566-00-0000-802-15-10a-csd.docx

- Title
  - Comment: The amendment title on the CSD does not agree with the title on the PAR
  - Proposed remedy: Reconcile the two.
  - 802.15 resolution: Accept. Titles will be reconciled

P802.11ax (PAR modification)

High Efficiency WLAN

PAR:
