

Broadband Forum Liaison To:

Paul Nikolich, Chair- Chair, IEEE 802 LMSC <p.nikolich@ieee.org>
Glenn Parsons, Chair - IEEE 802.1 HILI Working Group <glenn.parsons@ericsson.com>
David Law, Chair - IEEE 802.3 Ethernet Working Group <DLaw@hpe.com>

From:

Lincoln Lavoie, Broadband Forum Technical Committee Chair <lylavoie@unh.iol.edu>

Liaison Communicated By:

Joey Boyd, Work Area Director Common YANG, <joey.boyd@adtran.com>

Date: 29 August 2018

Subject: For Information: BBF YANG Best Current Practices

After transmission of our Liaisons of 18 January 2018 (LIAISE-121), 29 March 2018 (LIAISE-154), and others, it was suggested that your organizations might have an interest in reviewing the Forum's YANG guidelines document. In the interest of harmonizing YANG styles across SDOs we have attached a copy of these guidelines, OD-360 BBF YANG Current Best Practices, for your consideration. OD-360 is a living document and changes are expected as better practices come to the BBF's attention. While this document is not meant for public dissemination you are welcome to share it with your organizations' participants, particularly those currently working on or considering future work on YANG data models. If your organization also has a guidelines document on YANG data model development we would appreciate receiving a copy for our information.

We appreciate the open correspondence our organizations have established and look forward to continued cooperation on YANG data model development.

Sincerely,

Lincoln Lavoie,
Broadband Forum Technical Committee Chair
