Subject: Liaison reply to BBF regarding YANG Best Current Practices

Approval: Agreed to at IEEE 802.3 interim meeting, Spokane, WA, USA, 13th September 2018

Dear Mr. Lavoie,

Thank you for your liaison of 29th August 2018 regarding YANG Best Current Practices, the attached OD-360 document, and continuing our dialogue on YANG data model development. We do not have any comment on OD-360 at this time. The IEEE 802.3 Working Group does not currently have, nor are we planning on creating, a guideline on YANG best practices. The IEEE 802.3 Working Group is currently following "YANGsters repository guidelines" which can be found at the URL <https://1.ieee802.org/yangsters/>.

For your information the IEEE P802.3.2 (802.3cf) Standard for Ethernet YANG Data Model Definitions draft entered Sponsor Ballot on Tuesday 18th September 2018.

We look forward to continued cooperation with the Broadband Forum on YANG data model development.

Sincerely,

David Law

Chair, IEEE 802.3 Ethernet Working Group
