Subject: Liaison reply to BBF regarding YANG Best Current Practices

Approval: Agreed to at IEEE 802.3 interim meeting, Spokane WA, September 13, 2018

Dear Mr. Lavoie,

Thank you for your liaison of 29 August 2018 regarding YANG Best Current Practices, the attached OD-360 document, and continuing our dialogue on YANG data model development. We do not have any comment on OD-360 at this time. The IEEE 802.3 Working Group does not currently have, nor are we planning on creating, a guideline on YANG best practices. The 802.3 Working Group is currently following "YANGsters repository guidelines" which can be found at the following URL; <https://1.ieee802.org/yangsters/>.

For your information the IEEE P802.3.2 (802.3cf) YANG Data Model Definitions Task Force draft was approved **and will be entering** Sponsor Ballot soon.

We look forward to continued cooperation with the Broadband Forum on YANG data model development.

Sincerely,

David Law

Chair, IEEE 802.3 Ethernet Working Group
