Keywords:	ANT; Access Network Transport; Standards Overview; Standards Work Plan

Abstract:	This LS invites the ITU-T and ITU-R Study Groups and other standards organizations that may be engaged in developing access network standards to review and provide their updates on the new version of the Access Network Transport (ANT) Standards Overview and Work Plan.

ITU-T Study Group 15 entrusted WP1/15, under Question 1/15, with the task to manage and carry out the Lead Study Group on Access Network Transport (ANT) activities. The outcome of the activities is twofold, consisting of the ANT Standards Overview, containing a list of the existing Standards and Recommendations from ITU and various Standardization Bodies, as well as an ANT Standards Work Plan, providing an overview of various Standardization Groups and their ongoing ANT activities. These documents are used to identify gaps and overlaps of standards activities pertaining to access networks so as to help in the coordination of ANT standardization activities. Both documents were revised during the ITU-T SG15 meeting in Geneva, 1-12 July 2019.
The new updated version from the 1-12 July 2019 meeting can be found on:

http://www.itu.int/en/ITU-T/studygroups/com15/Pages/ant.aspx

Q1/15 would like to express thanks for your kind cooperation, especially to those organizations that have been previously contacted and made specific recommendations to update these documents by LS.

As usual after each revision, Q1/15 would again like to draw your attention to both documents and would appreciate any suggestions and comments.

ANT Standards Overview
Revisions of the status of the standards concerning your group that are collected in Annex 2 "ANT-Relevant Standards" of the Standards Overview are highly welcomed.

ANT Standards Work Plan
Also, Q1/15 would like to refer you to Table 3.1 "Contacts" of the ANT Standards Work Plan. This table contains a list of standards organizations that may be engaged in developing access network standards, and when available provide the contact or liaison information. Q1/15 welcomes your comments and suggestions on this table, including any candidate standards organizations to add to the list or that you believe could be removed as not pertinent to the ANT Standardization and Work Plan.

Q1/15 would like also to refer you to Section 5 that reports "Ongoing Standardization activities in the area of Access Network Transport ", especially the Section 5.2 "List of on-going standardization activities in the area of Access Network Transport in other groups within ITU and other Standard Developing Organizations". Q1/15 welcomes your input, update or comments of those activities concerning your group.

Q1/15 of ITU-T SG15 looks forward to future liaisons with all pertinent ITU-T and ITU-R Study Groups, Working Parties and other pertinent SDOs to keep the ANT Standards Overview and Work Plan current, relevant and effective.
