Abstract: This LS invites the ITU-T and ITU-R Study Groups and other standards organizations that may be engaged in developing home network standards to review and provide their updates on the new version of the Home Network Transport (HNT) Standards Overview and Work Plan.

ITU-T Study Group 15 entrusted WP1/15, under Question 1/15, with the task to assemble a database of Home Network Transport (HNT) Standards. The outcome of this activity consists of an HNT Standards Overview containing a list of the existing Standards and Recommendations from ITU and various Standardization Bodies as well as a related Work Plan that provides an overview of various Standardization Groups and their ongoing HNT activities.

This document is intended to provide an overview of various Standardization Groups and their ongoing activities related to Home Networks, to identify gaps and overlaps and so as to help in the coordination of Home Network standardization activities.

The document has been revised during the ITU-T SG15 meeting in Geneva, 1-12 July 2019. The new updated version from the 1-12 July 2019 meeting can be found on:

<http://www.itu.int/en/ITU-T/studygroups/Pages/sg15-hnt.aspx>
