Subject: ISO/IEC 8802-3:2000

Action: Liaison Statement

From: David Law, Chair, IEEE 802.3 Ethernet Working Group (David_Law@3Com.com)

Approval: Agreed to at IEEE P802.3 Plenary meeting, Vancouver, BC, Canada on March 12, 2009

Dear Members of ISO/IEC JTC 1 SC6 WG 1,

The IEEE 802.3 Ethernet Working Group would like to inform you that ISO/IEC 8802-3:2000 is obsolete. The current revision of IEEE Std 802.3 is IEEE 802.3-2008.

The IEEE 802.3 Working Group believes that the current PSDO fully satisfies our requirements for international acceptance and recognition. IEEE 802.3 does not expect to submit any further versions to ISO/IEC for approval.

Therefore we suggest ISO/IEC JTC 1 SC6 WG 1 review whether the active status of ISO/IEC 8802-3:2000 is appropriate.

The IEEE 802.3 Working Group has enjoyed working with ISO/IEC JTC 1 SC6 WG 1. We wish to thank the leadership and members of ISO/IEC JTC 1 SC6 WG 1.

We continue to offer and look forward to contributions from your members or International Observers in our future work.

Sincerely,

David J. Law
Chair, IEEE 802.3 Ethernet Working Group
