

IEEE 802.19 Wireless Coexistence TAG

March 2004 Closing Report

**Steve Shellhammer
shellhammer@ieee.org**

Elected TAG Officers

- **Chairman**
 - Steve Shellhammer 4/0/0
- **Vice Chairman**
 - Tom Siep 4/0/0
- **Editor/Secretary**
 - David Cypher 4/0/0

Motion to the Executive Committee

- Move to confirm the election of Steve Shellhammer as Chairman and Tom Siep as Vice Chairman of IEEE 802.19 Wireless Coexistence TAG through March 2006
 - Mover: Jerry Upton
 - Second: Matthew Sherman
 - Vote: 12/0/0

Proposal to LMSC P&P to Address Coexistence

- The TAG developed a set of proposed changes to the LMSC P&P
 - IEEE 802.19-04/0010r1
- The document is being socialized with members of all the wireless working groups
- The TAG is soliciting comments on the document.
 - The TAG would respectfully request that all comments be submitted to the TAG, by April 30

Proposal to LMSC P&P to Address Coexistence

- The process establishes what a wireless working group shall do at two steps in the standards development process.
- At the PAR approval process the WG shall:
 - List all know standard with which the proposed standard could mutually interfere.
 - Describe the anticipated approach for demonstrating coexistence.

Proposal to LMSC P&P to Address Coexistence

- Prior to requesting the SEC to submit the draft for sponsor ballot the WG shall:
 - Submit a coexistence assurance document, demonstrating that the new standard coexists with present standards, to the 802.19 TAG.
- The TAG will offer its technical opinion of the coexistence assurance document.

TAG Plans

- Develop a coexistence assurance methodology document describing how to produce a coexistence assurance document.
 - Call for submissions was recently sent to the various wireless WG reflectors
 - IEEE 802.19-04-0007r3
 - The TAG will be hearing submissions starting at the May Interim session
